

TAYSIDE FIRE AND RESCUE SUPPLIERS' CHARTER

The Suppliers' Charter outlines the commitment of Tayside Fire and Rescue:

- Develop public sector procurement processes with the aim of ensuring fairness and transparency.
- Consult with business on an ongoing basis to achieve change.

Specifically it commits Tayside Fire and Rescue to:

- Adequately publicise contracting opportunities.
- Use debriefing on request.

The Suppliers' Charter also contains a commitment from business organisations to:

- Encourage adherence to the Charter.
- Recognise legal framework for public sector procurement.
- Bid for appropriate contracts.

Both Tayside Fire and Rescue and business accept that effective procurement practices are an important factor in ensuring a varied and competitive marketplace and creating opportunities for Small and Medium Enterprises (SMEs), as well as ensuring Best Value/Value for Money for the public sector. We recognise the need, where practical, to simplify and standardise processes and to ensure consistency in order to provide a fair and open approach to tendering. With these aims in mind:-

Suppliers' Charter

Tayside Fire and Rescue will:

- Consult with the business community to identify and reduce barriers to business.
- Facilitate understanding of public sector procurement policy and legislation by relevant stakeholders.
- Ensure that the approach to individual contracts, including large contracts and framework agreements, is supported by a sound business case.
- Keep the tender process as simple as possible, but consistent with achieving Best Value/value for money, to help minimise costs to suppliers.
- Unless there are compelling business reasons to the contrary ensure that adequate and appropriate publicity is given to contract opportunities that fall below the OJEU threshold limits or are otherwise exempt from the public procurement directives. (Compelling reasons may, for example, include the factor that the proposed firm is by recent experience (within 3 months) the best value for money supplier and would be likely to remain so in another competition).
- Commit to using the core questionnaire for routine procurements with addition of bespoke additions on a case by case basis.
- Offer meaningful feedback to suppliers on the evaluation of their proposal at the end of the tendering process wherever possible.
- Publish guidance for the business community on tendering for opportunities.

- Support training for procurement staff to develop consistency in the use of best practice procurement activity.

Businesses and their representative organisations will:

- Provide feedback from suppliers and their respective associations, on tender processes and perceived barriers to business. Representative organisations will act as a guide to their members in cases of complaint and help them to distinguish the appropriate course of action.
- Recognise duties under EU and UK law surrounding public procurement activity.
- Encourage members of business organisations to adhere to this Charter.
- Support public sector websites as a means of accessing contract opportunities.
- Make effective use of their skills and resources in bidding for and providing public sector goods and services.
- To support the use of the core questionnaire in the tendering process and the scope for debriefing.
- Encourage understanding of the principles of good business practice by appropriate means eg dissemination of information and awareness raising seminars.
- Work with your customers to deliver value for money throughout the life of the contract.
